On motion of Mr. Sargent, a committee of conference was ordered on the disagreeing votes on the Indian appropriation bill. The House then, in the morning hour, resumed the consideration of the bill for the admission of Colorado as a state, the previous question being understood as having been ordered, and it was debated at some length.

called remedies of preventives for this loathsome disease, now so prevalent, are absolutely
worthless, if not positively hurtful. The Boston
Globe, however, gives the "following suggestions by an eminent physician," which seem
to be marked by a degree of common sense
and apparent medical knowledge that renders
them valuable. The first thing, says this anthority, is in all cases to send for a physician;
the next, to select a nurse. A mustard plaster,

The patient should be removed, as soon as taken, to the highest room in the house. as taken, to the highest room in the house. Such a room is more quiet, the air is fresher and purer, and the risk of infection as to the other parts of the house is much lessened. A sheet now hung before the door, and cloths placed about the room, saturated with bromochloralum, or carbonic acid—in both cases one part of the disinfectant to two parts of water—will absorb the poison in a measure, and should never be neglected. Into all the vessels the patient uses, even into the basin that receives his saliva, the mixture should be poured and kept. Keep the room comparatively dark, and at a moderate temperature—about sixty degrees—and remember the sick man must have air. The nurse must not leave the room; all bedding must be burned by her, and all clothes that cannot be boiled. A mattress is far better than a feather boiled. A mattress is far better than a feather bed for the patient to lie on, but it a feather bed is used, it becomes the very rankest poison, saturated, and almost impossible to disinfect, and must be burned immediately on recovery. GATHERING STAMPS .- The Swiss Times of

A few days ago the said youths unexpectedly received through the American cover at Berne day. through the American envoy at Berne a fine assortment of United States stamps, accompanied by a letter, in which the President said that his many duties had prevented him undertaking the collection himself, and that therefore his youngest son had taken the matter in hand
